CURRENT LIST of MEDICAL LITERATURE

Vol.10 June 7, 1946 No.23

SUBJECT GROUPS ACCORDING TO JOURNALS

* 1. Anatomy; Histology
2. Anthropology; Ethnology
3. Archeology; Paleontology
4. Aviation Medicine
* 5. Bacteriology; Parasitology
* 6. Biology; Embryology
* 7. Bone; Joint; Extremities; Muscle
* 8. Cancerology
* 9. Cardiovascular System
* 10. Chemistry; Physics
* 11. Dentistry; Stomatology
* 12. Dermatology
* 13. Diagnosis; Clinical Methods
* 14. Dietetics; Foods; Nutrition
* 15. Digestive System
* 16. Endocrinology
* 17. Forensic Medicine; Toxicology
* 18. Genetics; Eugenics
* 19. Gynecology; Obstetrics
20. Hematology
* 21. History; Biography; Bibliography
* 22. Homeopathy; Osteopathy, etc.
* 23. Hospitals
24. Immunology; Serology
* 25. Industrial Hygiene; Sociology
* 26. Infectious Diseases; Epidemiology
* 27. Medicine
28. Metabolism
* 29. Military and Naval Medicine
* 30. Miscellaneous
31. Neurology; Psychiatry
32. Nursing
33. Ophthalmology
34. Otorhinolaryngology; Phoniatry
35. Pathology
36. Pediatrics; Child Welfare
37. Pharmacology; Pharmacy
38. Physiology
39. Psychology; Mental Hygiene
40. Public Health; Sanitation
41. Radiology; Phototherapy
42. Respiratory System
43. Surgery; Traumatology
44. Therapeutics
45. Tropical Medicine
46. Tuberculosis
47. Urology
48. Venereal Diseases; Sexology
49. Veterinary Medicine
50. Zoology

THE ARMY MEDICAL LIBRARY
Washington, D. C.

The CURRENT LIST OF MEDICAL LITERATURE is for sale by the Superintendent of Documents U. S. Government Printing Office, Washington 25, D.C. : $3.00 per year ($3.75 foreign) 10 cents per single copy. All communications regarding subscriptions should be addressed to the Superintendent of Documents at the above address.

****

Published weekly by the Army Medical Library 7th Street & Independence Ave., S. W., Washington 25, D.C., as an intraservice publication of the War Department. Lists with complete reference articles of medical interest contained in all current journals received. Subject-index provided monthly. Exchange invited.

1. Anatomy; Histology

Am.J.Anat.,1946,78: (Mar.)

KLAPPER,C.E. The development of the pharynx of the guinea pig with special emphasis on the morphogenesis of the thymus. 139-80, incl. 5 pl.
WISLOCKI,G.B.,& DEMPSEY,E.W. Histochemical reactions of the placenta of the pig. 181-225, incl. 6 pl.
DEANE,H.W. The basophilic bodies in hepatic cells. 227-43, incl. 2 pl.
GESSLER,A.E.,& FULLAM,E.F. Sectioning for the electron microscope accomplished by the high speed microtome. 245-83, incl. 12 pl.

Stain Techn.,1946,21: (Apr.)

CONN,H.J. Progress in the standardization of stains; recent advances. 41.
CONN,H.J.,& STOTZ,E. Comparative absorption readings obtained with spectrophotometers of various types. 49-54.
WILLIAMS,T.W.,Jr. The differentiation of placoid,ctenoid and cycloid scales by means of alizarin red S. 55-8.
ROGOFF,W.M. The Bodian technic and the mosquito nervous system. 59-61.
COLE,E.C. Improved fixation in vitally stained methylene blue preparations. 63.
DUNN,R.C.,& THOMPSON,E.C. A simplified stain for hemoglobin in tissues or smears using patent blue. 65-7.
LILLIE,R.D.,& GRECO,J. A simplified method of preparation of di-ammine-silver hydroxide for reticulum impregnation; comments on the nature of the so-called sensitization before impregnation. 69-72.
ROSENBAUM,R.M. The use of clarite in preparing whole microscopic mounts. 73.
WEBER,G.C. Sterile milk for background in capsule staining. 75.
CONN,H.J.,& DARROW,M.A. Further observations on ethyl alcohol substitutes. 75.

5. Bacteriology; Parasitology

J.Econ.Entom.,1946,39: (Feb.)

HASEMAN,L. Sulfa drugs to control American foulbrood. 5-7.
HASEMAN,L. Influence of soil minerals on insects. 8-11.
SIMMONS,S.W. Investigations at the Henry R. Carter Memorial Laboratory of the United States Public Health Service. 15-7.
SNAPP,O.I. DDT to control bugs that cause deformed peaches. 41-3.
COTTAM,C.,& HIGGINS,E. DDT and its effect on fish and wildlife. 44-52.
WISECUP,C.B.,BROTHERS,W.C. [et al.] DDT emulsion applied to rice-field water to control mosquitoes. 52-5.
LINDQUIST,A.W.,JONES,H.A.,& MADDEN,A.H. DDT residual-type sprays as affected by light. 55-9.
DAVIS,J.J. DDT to control household and stored grain insects. 59-61.
MATTHYSSE,J.C. DDT to control hornflies and Gulf Coast ticks on range cattle in Florida. 62-5.

LAAKE,E.W. DDT for the control of the horn fly in Kansas. 65-8.
HARING,R.C. Azobenzene as an acaricide and insecticide. 78-80.
CARPENTER,S.J.,& CHAMBERLAIN,R.W. Mosquito collections at Army installations in the Fourth Service Command, 1943. 82-8.
PEAIRS,L.M. DDT and hornfly populations. 91.
PARISH,H.E.,& RUDE,C.S. DDT to control the winter horse tick. 92.

6. Biology; Embryology

Bios,Mount Vernon,1946,17: (May)

CHANCE,H.L. Antagonism and antibiotics. 84-6.
GRIGGS,H. Sex hormones and their relationships. 87-97.
BRAGG,A.N. Confusion thrice confounded. 99-102. Nomenclature

7. Bone; Joint; Extremities; Muscle

Rev.rhumat.,Par.,1946,13: (Feb.)

CHAVANY,J.A.,& TROTOT,R.P. Du choix de l'intervention chirurgicale en ce qui concerne les sciatiques rhumatismales rebelles. 29-33.
BERT,J.M.,& LOWOWICZ. Nanisme micromélique d'origine exostosique. 34.
GAUCHER. Rhumatismes d'origine focale prostatique. 36-42.
MORIN,M. Les manifestations articulaires à bacillus funduliformis. 43-51.

8. Cancerology

Bol.Liga cáncer,Habana,Ed.cien.,1946,21: (Mar.-Apr.)

DESJARDINS,A.U.,& WILLIAMS,M.M.D. Radium. 33-45.

Cancer Res.,1946,6: (May)

ROYLE,J.G. Some cultural and cytological characteristics of human tumors in vitro. 225-9.
BRUNSCHWIG,A.,DUNHAM,L.,& NICHOLS,S. Potassium and calcium content of gastric carcinoma. 230-2.
DUNHAM,L.,NICHOLS,S.,& BRUNSCHWIG,A. Potassium and calcium content of carcinomas and papillomas of the colon. 233.
BITTNER,J.J.,& HUSEBY,R.A. Relationship of the inherited susceptibility and the inherited hormonal influence in the development of mammary cancer in mice. 235-9.
HUSEBY,R.A.,& BITTNER,J.J. A comparative morphological study of the mammary glands with reference to the known factors influencing the development of mammary carcinoma in mice. 240-55.
DUNNING,W.F.,CURTIS,M.R.,& SEGALOFF,A. Methylcholanthrene squamous cell carcinoma of the rat prostate with skeletal metastases, and failure of the rat liver to respond to the carcinogen. 256-62.
FEKETE,E. A comparative study of the ovaries of virgin mice of the dba and C57 black

strains. 263-9.
GOTTSCHALK,R.G. Factors influencing the stability of a filtrable agent of chicken leukosis and sarcoma. 270-7.

9. Cardiovascular System

Am.Heart J.,1946,31: (Apr.)

WINSOR,T.,& BURCH,G.E. Use of the phlebomanometer; normal venous pressure values and a study of certain clinical aspects of venous hypertension in man. 387-406.
BRANNON,E.S.,STEAD,E.A.,Jr. [et al.] Hemodynamics of acute hemorrhage in man. 407-12.
MERRILL,A.J.,WARREN,J.V. [et al.] The circulation in penetrating wounds of the chest; a study by the method of right heart catheterization. 413-7.
WARREN,J.V.,BRANNON,E.S. [et al.] Pericardial tamponade from stab wound of the heart and pericardial effusion or empyema; a study utilizing the method of right heart catheterization. 418-25.
SPRAGUE,H.B. The effects of malaria on the heart. 426-30.
BATTERMAN,R.C.,DeGRAFF,A.C.,& SHORR,H.M. Further observations on the use of mercupurin administered orally. 431-7.
PARSONNET,A.E.,BERNSTEIN,A.,& MARTLAND,H.S. Massive left auricle with special reference to its etiology and mechanism; report of a case. 438-50.
KYSER,F.A.,GINSBERG,H.,& GILBERT,N.C. The effect of certain drugs upon the cardiotoxic lesions of digitalis in the dog. 451-9.
MACHT,D.I. Thromboplastic properties of some mercurial diuretics. 460-3.
SCHLAMOWITZ,I. An analysis of the time relationships within the cardiac cycle in electrocardiograms of normal men; the duration of the T-P interval and its relationship to the cycle length (R-R interval) 464-72.
SCHLAMOWITZ,I. An analysis of the time relationships within the cardiac cycle in electrocardiograms of normal men; the duration of the P-R interval and its relationship to the cycle length (R-R interval) 473-6.
STEIN,I. The effect of change of position of the arm upon blood pressure. 477-80.
HOLLANDER,G. Electrocardiographic changes in scrub typhus fever. 481-9.
HERBUT,P.A.,& FOX,J.R. Persistent right aortic arch with atresia of the entire main pulmonary artery. 490-5.
EDELSTEIN,J.M. Primary,massive calcification with ossification of the myocardium. 496-500, incl. pl.
MILLER,R.,& PERELMAN,J.S. Multiple disturbances of rhythm and conduction and unusual auricular T wave in a case of myocardial infarction. 501-10.
EICHERT,H. Transient bundle branch block associated with tachycardia. 511-8.

10. Chemistry; Physics

Analyst,Lond.,1946,71: (Apr.)

KAY,J.,& HAYWOOD,P.J.C. The determination of theobromine in cocoa residues; an examination of the Wadsworth method. 162-6.
MANN,T.B. A fluorimetric method for the estimation of riboflavine in egg white and egg yolk. 166-71.
OVENSTON,T.C.J.,& PARKER,C.A. An absorptiometric method for the determination of inorganic fluorides in organic products. 171-5.
WILLIAMS,H.A. The titration of microgram quantities of fluorides. 175-82.

Canad.J.Res.,1946,24: Sect. A. (Jan.-May)

DOUGLAS,D.G.,& MacKAY,C.A. The surface tension of slightly soluble fatty acids. 8-14.

Canad.J.Res.,1946,24: Sect.B. (May)

KIRKWOOD,S.,& DACEY,J.R. Synthesis of some analogues of 1,1-bis-(p-chlorophenyl)-2,2,2-trichloroethane (DDT); three fluorine analogues. 69-72.
HODGINS,J.W.,& HARVEY,R.B. An automatic burette for the delivery of gas at constant pressure. 81.

Chem.Rev.,Balt.,1946,38: (Apr.)

ZUIDEMA,H.H. Oxidation of lubricating oils 197-226.
FERGUSON,L.N. The synthesis of aromatic aldehydes. 227-54.
ROBLIN,R.O.,Jr. Metabolite antagonists. 255-377.

J.Am.Chem.Soc.,1946, 68: (May)

STUART,A.H.,SHUKIS,A.J. [et al.] Synthetic estrogenic compounds; trialkyl derivatives of 1,3-di-(p-hydroxyphenyl)-propane; benzestrol. 729-33.
BARKAN,G.,& GOLDSMITH,L. Antibacterial action of an oxidation product of sulfanilamide. 733.
MILAS,N.A.,& MILONE,C.R. Studies in the synthesis of the antirachitic vitamins; 5-androstenol-3 and its partial dehydrogenation with benzoquinone. 738-40.
KAISER,E.,& KOENIG,V.L. The ultraviolet absorption spectra of allyl and propenyl substituted derivatives of diethylstilbestrol and hexestrol. 740-2.
BULL,H.B.,& CURRIE,B.T. Osmotic pressure of B-lactoglobulin solutions. 742-5.
BULL,H.B. Monolayers of B-lactoglobulin; film molecular weight. 745-7.
BULL,H.B. Mixed monolayers of B-lactoglobulin and lauryl sulfate. 747.
SHELTON,R.S.,VAN CAMPEN,M.G. [et al.] Quaternary ammonium salts as germicides; nonacylated quaternary ammonium salts derived from aliphatic amines. 753-5.
SHELTON,R.S.,VAN CAMPEN,M.G. [et al.] Quaternary ammonium salts as germicides; acetoxy and carbethoxy derivatives of aliphatic quaternary ammonium salts. 755-7.
SHELTON,R.S.,VAN CAMPEN,M.G. [et al.] Quaternary ammonium salts as germicides; quaternary ammonium slats derived from cyclic amines. 757-9.
MARION,L. The papilionaceous alkaloids; Lupinus macounii,Rydb. 759.
BERGMANN,F. Suflathiourea. 761-4.
BERGMANN,F. Alkyl derivatives of sulfaguanidine. 765.
PRICE,C.C.,LEONARD,N.J.,& REITSEMA,R.H. An isomer of thiamin. 766-9.
PECK,R.L.,WALTI,A. [et al.] Streptomyces antibiotics; isolation of streptothricin. 772-6.
PECK,R.L.,HOFFHINE,C.E.,Jr. [et al.] Streptomyces antibiotics; the structure of streptidine. 776-81.
MORGAN,M.S.,& CRETCHER,L.H. Two 6-β-hydroxyethoxy-8-diethylaminoalkylaminoquinolines. 781-4.

WOLFROM,M.L.,& THOMPSON,A. L-fructose. 791-3.
PAULING,L.,WOOD,R.E.,& STURDIVANT,J.H. An instrument for determining the partial pressure of oxygen in a gas. 795-8.
McKENNIS,H.,jr.,& DU VIGNEAUD,V. The synthesis of homodesthiobiotin and related compounds. 832-5.
LEVITON,A. The microbiological synthesis of riboflavin; a theory concerning its inhibition. 835-40.
FOSDICK,L.S.,FANCHER,O.,& URBACH,K.F. Pressor amines containing nuclear chlorine and fluorine. 840-3.
ROGERS,M.T.,& ROBERTS,J.D. Cyclopropane derivatives; the electric moments of some alicyclic compounds. 843-6.
HARRIS,G.H.,HARRIMAN,B.R.,& WHEELER,K.W. The alkaline hydrolysis of fluorenone-spirohydantoin. 846-8.
JONES,F.T. Optical and crystallographic properties of lysozyme chloride. 854-7.
BRIDGMAN,W.B. The peptic digestion of human gamma globulin. 857-61.
MARVEL,C.S.,OVERBERGER,C.G. [et al.] The preparation and polymerization of the six nuclear isomeric dichlorostyrenes. 861-4.
HARTWELL,J.L.,& KORNBERG,S.R.L. Some quaternary ammonium salts of heterocyclic bases. 868-70.
DODSON,R.M.,& KING,L.C. The reaction of acetophenone with thiourea and oxidizing agents. 871.
CARLIN,R.B.,& SHAKESPEARE,N.E. The polymerization of p-chlorostyrene in the presence of polymethylacrylate. 876-8.
KATCHALSKI,E.,GROSSFELD,I.,& FRANKEL,M. Synthesis of lysine anhydride. 879.
THOMAS,D.G.,BILLMAN,J.H.,& DAVIS,C.E. Alkylation of amines; N,N-dialkylation of nuclear substituted anilines. 895.
RODEBUSH,W.H.,& FELDMAN,I. Ultraviolet absorption spectra of organic molecules; mechanical interference of substituent groups with resonance configurations. 896-9.
KELLER,R.N.,& SMITH,P.A.S. Salts and esters of hydroxylamine-O-sulfonic acid. 899-902.
GILMAN,H.,& MASSIE,S.P.,jr. Anils as open models of a modified atebrin. 908.
ZIMM,B.H.,& MYERSON,I. A convenient small osmometer. 911.
BATTISTA,O.A.,& SISSON,W.A. Fractionation of cellulose. 915.

J.Biol.Chem.,1946,163: (May)

ELLIOTT,K.A.C.,& HENRY,M. Studies on the metabolism of brain suspensions; respiration at low oxygen tension. 351-9.
ELLIOTT,K.A.C.,& HENRY,M. Studies on the metabolism of brain suspensions; anaerobic glycolysis. 361-74.
FURCHGOTT,F.R.,ROSENKRANTZ,H.,& SHORR,E. Infra-red absorption spectra of steroids; androgens and related steroids. 375-86.
RUBIN,M.,& BIRD,H.R. A chick growth factor in cow manure; its non-identity with chick growth factors previously described. 387-92.
RUBIN,M.,& BIRD,H.R. A chick growth factor in cow manure; the preparation of concentrates and the properties of the factor. 393-400.
MURRAY,H.C.,& MORGAN,A.F. Carbohydrate metabolism in the ascorbic acid-deficient guinea pig under normal and anoxic conditions. 401-10.
RAPOPORT,S.,STEVENS,C.D. [et al.] The effect of voluntary overbreathing on the electrolyte equilibrium of arterial blood in man. 411-27.
HALD,P.M. Notes on the determination and distribution of sodium and potassium in cells and serum of normal human blood. 429-34.

HAHN,P.F. A simple method of preparation of colloidal ferrous iron for intravenous administration. 435.
POTTER,V.R. The assay of animal tissues for respiratory enzymes; cell structure in relation to fatty acid oxidation. 437-46.
HUTCHINGS,B.L.,OLESON,J.J.,& STOKSTAD,E.L.R. The Lactobacillus casei factors in the nutrition of the chick. 447-53.
SHANTZ,E.M.,EMBREE,N.D. [et al.] The replacement of vitamin A_1 by vitamin A_2 in the retina of the rat. 455-64.
MEAD,J.F.,RAPPORT,M.M. [et al.] The synthesis of potential antimalarials; derivatives of pantoyltaurine. 465-73.
NACHMANSOHN,D.,JOHN,H.M.,& BERMAN,M. Studies on choline acetylase; the formation of acetylcholine in the nerve axon. 475-80.
WOOLLEY,D.W. Reversal of the action of phenyl pantothenone by certain amino acids. 481-6.
SCHLAMOWITZ,M.,& GARNER,R.L. The ribonucleinase of the soy bean; isolation of the enzyme. 487-97.
ROBERTS,E.C.,& SNELL,E.E. An improved medium for microbiological assays with Lactobacillus casei. 499-509.
SEIBERT,F.B.,& ATNO,J. Determination of polysaccharide in serum. 511-22.
BOVARNICK,M.R.,LINDSAY,A.,& HELLERMAN,L. Preparation and properties of Plasmodium lophurae separated from the red cells of duck blood by means of saponin. 523-33.
BOVARNICK,M.R.,LINDSAY,A.,& HELLERMAN,L. Atabrine (quinacrine) inhibition of glucose oxidation in parasites initially depleted of substrate; reversal by adenylic acid. 535-51.
HELLERMAN,L.,LINDSAY,A.,& BOVARNICK,M.R. Flavoenzyme catalysis; inhibition of d-amino acid oxidase by competition with flavin-adenine-dinucleotide of atabrine (quinacrine); quinine, and certain other compounds. 553-70.
BALLS,A.K.,THOMPSON,R.R.,& WALDEN,M.K. A crystalline protein with β-amylase activity, prepared from sweet potatoes. 571.
VENNESLAND,B.,EVANS,E.A.,jr.,& FRANCIS,A.M. The action of metmyoglobin,oxygen, and manganese on oxalacetic acid. 573.
DISCHE,Z. The aerobic glycolysis of avian red blood cells and its control by intracellular ions in physiological concentrations. 575.

J.Phys.Chem.,1946,50: (May)

HARBURY,L. Solubility and melting point as functions of particle size. 190; passim.
LOTZKAR,H.,SCHULTZ,T.H. [et al.] Effect of salts on the viscosity of pectinic acid solutions. 200-10.

Proc.R.Soc.,Lond.,Ser.A,1946,185: (Apr. 5)

WILLBOURN,A.H.,& HINSHELWOOD,C.N. The mechanism of the hydrogen-oxygen reaction; the third explosion limit. 353-69.
WILLBOURN,A.H.,& HINSHELWOOD,C.N. The mechanism of the hydrogen-oxygen reaction; the reaction occurring between the second and third explosion limits. 369-76.
WILLBOURN,A.H.,& HINSHELWOOD,C.N. The mechanism of the hydrogen-oxygen reaction; the influence of salts. 376-80.
HORTON,F.,& MILLEST,D.M. The ionization of helium by neutral helium atoms. 381-98.
FROHLICH,H. Dielectric properties of dipolar solids. 399-414.
FROHLICH,H.,& SACK,R. Theory of the rheological properties of dispersions. 415-30.

SARIC,S.P.,& SCHOFIELD,R.K. The dissociation constants of the carboxyl and hydroxyl groups in some insoluble and sol-forming polysaccharides. 431-47.
UBBELOHDE,A.R.,& WOODWARD,I. Structure and thermal properties of crystals; the role of hydrogen bonds in Rochelle salt. 448-65, pl.

11. Dentistry; Stomatology

Am.Ass.Orthodont. (1944),1945,42:

SVED,A. Changing the occlusal level and a new method of retention. 8-16.
HAHN,G.W. Orthodontics; its objectives, past and present. 17-21.
TWEED,C.H. Indications for the extraction of teeth in orthodontic procedure. 22-45.
HELLMAN,M. Fundamental principles and expedient compromises in orthodontic procedures. 46-53.
GRIEVE,G.W. Anatomical and clinical problems involved where extraction is indicated in orthodontic treatment. 54-60.
BRODIE,A.G. Does scientific investigation support the extraction of teeth in orthodontic therapy? 61-77.
CARLSON,H. Studies on the rate and amount of eruption of certain human teeth. 78-91.
HUGHES,B.O. Heredity and variations in the dentofacial complex. 92-6.
MOORE,G.R. Heredity as a guide in dentofacial orthopedics. 97-102.
SILVER,E.I. Forsyth orthodontic survey of untreated cases. 103-27.
MERRIFIELD,F.W. Phases of maxillofacial surgery of interest to the orthodontist. 128-34.
BAGDONAS,J.E. Effect of the Wagner Bill (S. 1161) upon the dental profession, the dentist, and the individual. 146-8.
LEFKOWITZ,W.,& WAUGH,L.M. Experimental depression of teeth. 149-64.
SPEIDEL,T.D.,& STONER,M.M. Variation of mandibular incisor axis in adult normal occlusion. 165-71.

Brit.Dent.J.,1946,80: (Apr. 18)

ROBERTS,W.R. Control of mandibular fragments by external fixation. 257; passim.
NASH,C.J. Gum hyperplasia due to epanutin. 272.
GRENNAN,S. A case of oral myiasis. 274.

Bull.Connecticut Dent.Ass.,1946,23: (May)

CHOLNOKY,T. The dentist's contribution to the diagnosis and treatment of cancer. 30-5.
CAVALLARO,A.L.,DeLANEY,W.F. [et al.] Dry socket. 41-8.
FERN,A.L. Should this case be treated orthodontically? 50.

Contact Point,1946,24: (Apr.)

HARRIS,O. Allergic reactions to denture bases. 243-6.

Dent.Digest,1946,52: (Apr.)

OGUS,W.I. Desiccation and sterilization of root canals by electrosurgery. 190-5.
HIRSCH,L. A technique for full impressions using alginates or colloids. 196.
ALLING,C.C. Emergency tracheotomy. 198-200.
MOSES,C.H. A controlled, correctable, and physiologically tolerable impression technique. 202-7.

Dent.Items,1946,68: (May)

McCOLLUM,B.B. What dentistry and dentists have accomplished. 429-46.

Dent.J.Australia,1946,18: (Jan.)

WOODHILL,J.M. Nutritional requirements, with special reference to the functioning of the teeth. 1-8.

Dent.J.Australia,1946,18: (Feb.)

CURRIE,R.L. Pain control; the invaluable factor. 57-62.
UNDERWOOD,R.C. A self-contained splint unit for fractures of the bones of the jaw and face. 62-8.

Dent.Surv.,1946,22: (Apr.)

MORRISON,R.L. The laws of physics and engineering applied to dentistry. 678-88.
